## HOLLYWOOD PROFESSIONAL SCHOOL

is an accredited college preparatory school, which was established for the purpose of offering a strong academic foundation to professional students actively engaged in motion picture or radio work. The large enrollment of non-professional students and those studying intensively in some branch of the cultural arts, attests the adaptability of the program. The school's educational ideal may be briefly expressed as the desire to give training and advice which will enable the student to achieve his highest potentialities.

Significant among the many contributing factors to the realization of this objective, is the guidance program. Each student's course of study is planned according to his interests, talents, and objectives. By developing those qualities and skills which will enable him to find gainful employment and to become a desirable member of his community, he is prepared for economic independence. Aesthetic and cultural subjects are considered essential as preparation for leisure time. As a result of this integrating program and personalized instruction, graduates have been able, not only to bring credit to themselves and to the school, but to "keep pace with an ever-changing world."

## PHILOSOPHY

The Hollywood Professional School is a co-educational day school, which was established for the purpose of offering a strong academic foundation to professional students actively engaged in motion picture, television, radio, broadcasting, and amateur and professional athletic competition, or students devoting part of their time to the development of special talents in the cultural fields. Its scope has enlarged to include many non-professional students who have found the personalized instruction, the four-hour school day, and the opportunity for competent, friendly assistance ideal in meeting their educational needs.

From the primary department through high school, emphasis is placed upon good work habits. Students who have developed an enthusiasm for study, will also attain a steadfastness of purpose leading to the fulfillment of their academic ambitions. High school students may take the college preparatory course, or choose one of the general high school courses.

The School's educational ideal may be briefly expressed as the desire to give training and advice which will enable the student to achieve his highest potentialities. Significant among the many contributing factors to the realization of this objective, is the guidance program. Each student's course of study is planned according to his interests, talents, and objectives. By developing qualities and skills which will enable him to find gainful employment and to become a desirable member of his community, he is prepared for economic independence. Aesthetic and cultural subjects are considered essential as preparation for leisure time.

The result of this integrating program is to give our junior citizens a sound education, enabling them to meet the exacting demands and complexities of today's world with poise, confidence, and courage.

The primary purpose of Hollywood Professional School is to help each learner develop his potential capacity, that he may make the most of himself as an individual and make his best contribution to society.

Educational opportunity should be equal for all. The school has a definite obligation to help each individual develop his talents and interests in accordance with his potential capacity.

Through learning of the basic skills and of factual knowledge necessary for effective living is an essential part of the educational program.

The educational creed of the Hollywood Professional School is rooted in our pupils to apply these ideals in the rapidly changing life of the present and the future. We believe that:

The purposes of education must be based on the need for effective individuals in American democratic society.

The preservation and strengthening of democracy is a primary obligation of our schools. Each pupil should understand the heritage of our nation, be proud of our great leaders, be zealous in upholding and practicing American ideals. He should understand relations with other nations and should learn to think clearly about national and international affairs.

Each pupil should be helped to develop self-discipline of mind and body.

The purposes of the school are:

If we are to educate the professional and non-professional student we must subscribe to the following objectives:

Develop a lasting loyalty to the American institutions and ideals.

Appreciate the cultural heritage of world civilizations.

Develop skill in writing, reading, and speaking the English language.

To understand the importance of literature, art, music and the allied fields as facets of human development and creative expression.

To acquire skill in mathematical processes.

To understand the basic methods of biological and physical sciences.

The school should work with home and the community to prepare individuals to earn and contribute in diverse occupations.

Pupils should have practice in making intelligent decisions based on facts and reasoning and should be encouraged in original thinking, creativity, and flexibility in adapting to change.

The strengthening of moral and spiritual values and the practice of good human relations are integral parts of a worthwhile school program.

The Hollywood Professional School provides education to meet the needs of all pupils. The senior high school program is designed to provide both the basic education needed by citizens in a democracy and specialized education determined by each pupil's goals for the future.

The four-hour morning sessions from 8:45 to 12:45 permits the professional student to rehearse, prepare for auditions and interviews, and study in a chosen professional field; the non-professional student, such as a member of the United Figure Skating Association, may practice and perform during the early afternoon hours.

TO THE 1971 GRADUATING CLASS  
HOLLYWOOD PROFESSIONAL HIGH SCHOOL

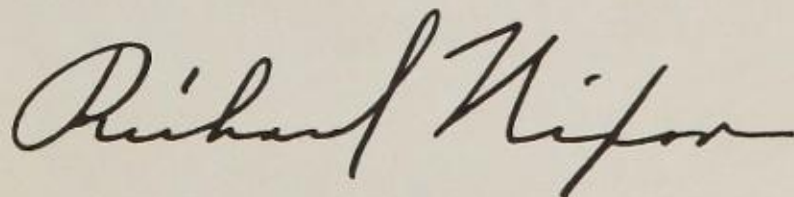

America can be intensely proud of the young men and women who complete their secondary education and begin their adult life. We have every reason to be encouraged as we look to you -- to your energies, your hopes and your ambitions. We have every right to be confident as we consider your high sense of purpose and refreshing desire to serve.

There is little doubt that today's seniors want to be involved. And today's America needs your full involvement. Whatever career, whatever interests, whatever course you pursue in your lives: you will find in our nation the unlimited opportunity to contribute to the progress and well-being of your fellow citizens. Our success in meeting the critical challenges we face as a nation depends on your positive response to this opportunity that is before you.

I believe that America's pride and confidence in you are soundly placed. I believe that you will look within yourselves to ask how best you can direct your special talents to help fill the urgent needs of those who, through no fault of their own, have not enjoyed a rightful share in the general prosperity of America.

I see a nation that is not divided by age groups, but one that is united in a common purpose: and it is a purpose in which you have a vital part.

My congratulations to you on the scholarship that has earned you this diploma, and my sincere good wishes as you go forth to do your best in your chosen field, helping to build better communities and a stronger America.

## Issues debated by candidates

By **TERI LOBREE**

Political involvement versus nonpolitical involvement was the main issue debated yesterday by ASSC presidential candidates Chuck Jones and John McGuinness in a formal debate in Hanco Auditorium.

McGuinness said, "The ASSC has no business dealing with outside politics. Anyone who wants to have outside political involvements should do it independently and not through the ASSC."

Jones rebutted, "Do you suggest we put a bubble over the university?" Jones said he felt that the ASSC should speak for the students in whatever it does.

AMERICAN HOMEMAKER OF TOMORROW,

Betty Crocker Kitchens • 9200 Wayzata Boulevard • Minneapolis, Minnesota 55440

1971

Dear Ava,

It is thrilling to congratulate you on the honor of being named Homemaker of Tomorrow for your school. You can wear your charm with pride, knowing that it represents outstanding qualities of homemaking that will stand you in good stead all the rest of your life.

Added to the distinction you have earned for yourself and your school is the exciting possibility that you may go on to be named Homemaker of Tomorrow for your state or even All-American Homemaker of Tomorrow, with the college scholarships these honors carry with them.

Whether this happens or not, you can know that you have laid the best possible foundation for a happy and successful future as a real homemaker--the most important and rewarding career a woman can have.

Cordially,

# OUTSTANDING TEENAGERS OF AMERICA

OFFICE OF THE DIRECTOR

March 1, 1971

Dear Principal:

I am pleased to inform you that the students from your school whose names appear in the enclosed news release have been selected as Outstanding Teenagers of America for 1971.

These students are automatically in competition for the Outstanding Teenager of the Year Trophy to be presented by the Governor of your state. Each of the 50 state winners will compete for one of the Two National Outstanding Teenagers of America titles and scholarships.

One of the primary goals of the Outstanding Teenagers of America program is to bring to the attention of the American public the positive achievements and attributes of today's young people. The enclosed news release is for your convenience in announcing these students' honors to your local newspaper.

Your school newspaper and high school yearbook will also be interested in featuring these awards. You will probably want to add a short sketch on these students listing their activities, achievements, and awards.

My congratulations to your school and the students who have been selected as Outstanding Teenagers of America for 1971.

Sincerely,

*Michael E. Alexander*

Dear Miss Stewart,

Mary Haines recommended me to you and suggested that you might be willing to be one of our Career Day speakers on Wednesday, March 10. Mary has great admiration for your dancing ability and she feels that the other girls who have expressed a desire to make dancing a career would benefit much from listening to you.

If you would consider coming to talk to our girls (a group of about ten girls), would you choose from the following available times the one most convenient for you: 12:09-12:49, 12:52-1:32, and 1:35-2:15. If the time doesn't matter, please let me know.

The girls would, of course, be interested in knowing how one goes about getting into the dancing career; any schools you would recommend; the education or training involved; job opportunities; monetary benefits. If you wish, I'm sure they would like to see you dance, but this is not necessary.

I shall look forward to hearing from you soon. If I can answer any questions, please feel free to write or to call (805-495-6494). The best time to call would be from 12:30-1:30 on school days, or in the evening.

Thank you for your time and consideration.

Sincerely,

*Sister Mary Carlann, SND*

Dear Career Day Speaker:

The faculty and students of La Reina wish to thank you for all you did to make this Career Day so very successful. The girls were grateful for the wealth of information given and the methods used to make your presentation so interesting and appealing. They further appreciated any literature you gave them. Their only negative comment was that the time was all too short. They would have liked an entire day.

Once again, thank you for all the time spent in preparing for the afternoon of March 10 and for your coming from far and near on the day itself. It was a real joy to have you.

Sincerely,

## The Arts: One to Grow On

BY MARLENE CIMONS

Times Staff Writer

He wants to be a professional concert pianist, therefore his main interest lies with classical music. But he likes all kinds, and he spends many hours studying the life and times of the composers whose music he plays.

"When you hear a piece and you know about the composer's background and the time in which he lived, you can see it in his work," he said.

He takes lessons three times a week and practices constantly. "If I play a piece and know it needs work, I'll practice it until it's perfect," he said. "If I'm getting ready for a concert, I'll play all day."

He is a ninth-grader at the Hollywood Professional school, a private school for the arts, and attends classes from 8:45 a.m. until 12:45 p.m. This gives him the afternoon for lessons and practice. Until last year he attended Bancroft Junior High School, but had a time problem completing both his homework and music.

He displays a soft-spoken modesty, giving complete credit for his young success to Mrs. Lipton and to his parents, Mr. and Mrs. Sam Nortman.

"His parents have been marvelous," Mrs. Lipton said. "They never made music seem like work. And his stepfather—why he knows nothing about music, but will sit in the same room with Norman for hours listening to Norman practice."

Magdon Lebow, director

of the Los Angeles Music Teachers Association, said: "Norman is a real talent. He is a L.A. Reporter—Park LaBrea Reporter—Pico Reporter—Wilshire, Beverly Hills Reporter, Dec. 16, 1970."

**LANGUAGE OF MUSIC**—Marge Champion talks with 13-year-old Norman Krieger of Los Angeles following his performance of Chabrier's "Scherzo-Valse" in Washington, D.C. as part of a

special 90-minute program titled "The Sounds of Children." The program, for participants in the White House Conference on Children, featured music by children from throughout the U.S.

## 4,000 Hear Piano Debut Scholarship Winners of 11-Year-Old Acclaimed in Recital

Young Pianist makes unforgettable debut with Redlands Bowl Orchestra

By CHARLES D. PERLEE  
Sun-Telegram Lively Arts Editor

Norman Krieger, 11-year-old pianist from Los Angeles, made his orchestral debut soloing most vividly in Mendelssohn's G Minor Concerto with the Redlands Bowl Symphony Orchestra and Harry Farberman Tuesday night. Norman received a spontaneous standing ovation.

It was an evening that was one of the hottest in Redlands Bowl's 46-year history, yet 4,000 people came in tribute to the orchestra, Farberman and Norman, whose fans are

already legion, many of them driving from as far as 100 miles.

Norman performed the Mendelssohn accurately, but more than that, with poetry, a sense of drama and imagination. He is a dedicated young man, destined for a great future.

The solo encore, which I enjoyed very much, was Chabrier's Scherzo and Valse.

**Redlands Bowl  
Symphony**

**NORMAN KRIEGER, 11** year-old piano prodigy, the son of Mr. and Mrs. Sam Nortman of Los Angeles, will appear as soloist with the Redlands Symphony Orchestra on Tuesday evening, Aug. 5. Harry Farberman will be conductor at the Redlands Bowl event.

★ PART IV MONDAY, DECEMBER 21, 1970

**PIANIST NORMAN KRIEGER** is thirteen years old, and has already played with the Los Angeles Philharmonic Orchestra (Symphonies for Youth) as well as appeared in summer concerts at the Redlands Bowl. He has twice won the Los Angeles Music Teachers Association scholarship and is studying for a second year under a Career Grant from the Young Musicians Foundation through its Jacques Tushinsky Memorial Scholarship Fund. He is a student of Esther Lipton and has recently played a Benefit Recital, the proceeds of which he has donated to the Young Musicians Foundation, "...because they have helped me so much. ... I would eventually like to pay back all they have given me in grants so that others may be helped."
